From knowledge to action:

Powering Connections with Speaker Programs

Great speaker programs need relationship architects and strategic planners who bring science to life for HCPs. From program design and expert selection to logistics mastery and on-site engagement, every event is an opportunity to build connections, spark scientific exchange, advance healthcare, and even to make new friends.

From Evidence to Influence

At Woven, we believe impactful peer-to-peer education transforms health care. Our speaker programs are built on the principle that every interaction, virtual, live, or hybrid, must be seamless, evidence-based, and compliant. By collaborating closely with your team and HCPs, we turn each event into a catalyst for meaningful change, education, clarity, transparency, and measurable results..

How do we ensure your speaker programs make an impact, on time, on message, and on budget?

Chart a path to impact

Align goals, audiences, and compliance needs, by mapping out the speaker and participant journeys.

- Needs assessment
- Content strategy
- Compliance tracking
- Budget management

Build Relationships

Strengthen peer-to-peer engagement and foster thought leadership every step of the way.

- KOL identification
- Faculty nomination
- Contracting
- Training
- Payments & reporting

Produce and Extend Meetings

Deliver content for every product stage and audience at in-person, online, and hybrid meetings.:

- Advisory boards
- Roundtables
- Traditional programs
- Slide libraries
- Promo materials
- Interactive cases
- Flipbooks and posters

Quantify Success

Measure your event's impact quantitatively and qualitatively to demonstrate results and inform future programs.

- Real-time analytics
- Reach data
- HCP engagement
- Speaker utilization
- Audit-ready payment reports (Sunshine/ Open Payments)

We promise to...

- Deliver streamlined, compliant, and impactful speaker programs, from planning through execution.
- Empower speakers with the latest scientific insights, compliance training, and presentation skills.
- Leverage technology, including the CMGO platform, for operational excellence and transparency.
- Act as an extension of your team, anticipating challenges and consistently exceeding expectations.
- Care passionately about the work of life science companies no matter their stage, size, or budget

Partnering with Woven.

Working with Woven Health Collective is seamless, strategic, and deeply personal. From day one, you will have direct access to our integrated teams across:

Creative
Designing bold, meaningful visuals that bring science to life

Medical
Transforming intricate data into clear, compliant information

Strategy
Aligning every tactic with your business and scientific goals

Compliance
Tracking and documenting program compliance

You'll be supported by a dedicated client lead who manages onboarding, project coordination, and day-to-day progress—ensuring clarity, continuity, and measurable momentum every step of the way.
